

# Vista Del Mar

## *Free Internet Access*

---

For your convenience we offer free Internet Connectivity at Vista Del Mar. Please note, however, that The Sea Ranch community does not currently offer high-speed internet options.

If your computer or portable device is Wi-Fi enabled, you can use the following information to join the wireless network.

Wireless Network: "**Vista Del Mar**"

Password: **breakerreach**

Wireless internet access at *Vista Del Mar* is made available via Central Valley Cable, and offers upload & download speeds over 500kb/s. Downloads are limited to ~650mb per day. If there is a connectivity problem, please contact for support Integrated Broadband Service at 1-855-237-3457

Please respect the 650mb daily download limit to ensure that other renters do not experience an outage in internet service caused by excessive bandwidth consumption. Those who come to Vista Del Mar after you depart will appreciate your consideration. Please also note that we have chosen the service provider most likely to meet our renter's expectations, and we do apologize for the limited connectivity.

In the unlikely event of a brownout in the Sea Ranch Community, connectivity may be restored by unplugging and reconnecting the router and modem power cables. The devices are located in the lower right area of the entertainment cabinet. The router power cable is marked with a yellow tag and the modem power cable is the black cable connected to the Motorola surfboard modem.

***Exceeding the bandwidth cap may result in a loss of connectivity for the next renter.***
